

The Free Mobile Warehouse Management System

WMS Express from Insight Works is a free mobile WMS add-on for Microsoft Dynamics 365 Business Central Cloud that brings mobile device integration to the warehouse setting. This means you can save a lot of time, while increasing accuracy, by scanning barcodes to manage different warehouse operations. Whether you run a simple operation where you use purchase and sales orders or run a more complex warehouse, WMS Express will help streamline processes. There are three free versions to choose from depending on your specific requirements.

THREE FREE VERSIONS TO CHOOSE FROM

	WMS Express STANDARD	WMS Express BASIC WAREHOUSE	WMS Express WAREHOUSE	Warehouse Insight
	Perfect for organizations that use purchase and sales orders but don't use warehouse documents like picks and put-aways.	A good option for those who run a simple warehouse and have inventory put-aways and inventory picks enabled.	A great choice for those using the warehouse document features of Dynamics 365 Business Central.	A complete subscription-based WMS solution that brings mobile device integration to your warehouse setting.
